Subject: HP Boycott--NO!
Date: Sunday, April 22, 2018 5:03:20 PM

Dennis,

I recently learned that this matter may come up before the City Council. I also understand, that whatever the rationale for a boycott of HP and its products and services, Palestinian human rights, doing business with ICE, etc, this is really about boycotting Israel. Mass Against HP makes it clear that this is what this effort is about.

I am adamantly opposed to this effort. If the City Council wants to have a debate on an Israeli boycott, that's one thing (not sure its the right thing but at least its out in the open). This subterfuge is not right. Not the right process and certainly not the right substance.

I am more than happy to discuss this with you. I hope you will oppose this effort, and do what you can to stop this thing. By the way, in my 30 years working in high tech, I competed against HP for about 25 of those years (we collaborated for five years), I have no love for HP, but this is just wrong as to HP and as to Israel..

all the best,

steve
